

**FJ CRUISER
RAPTOR GRILLE
ASSEMBLY**

What's in the Box?

A. 1 Matte Black FJ Cruiser Grille with Metal Insert

B. Wiring Harness & Plugs

C. TOYOTA Lettering

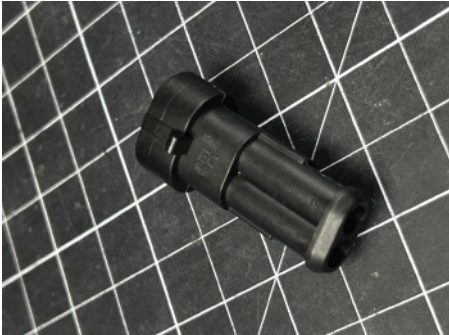

D. Mounting Hardware

E. Decorative Bolts & Nuts

Step 1: Attach Plugs on Your Raptor Lights

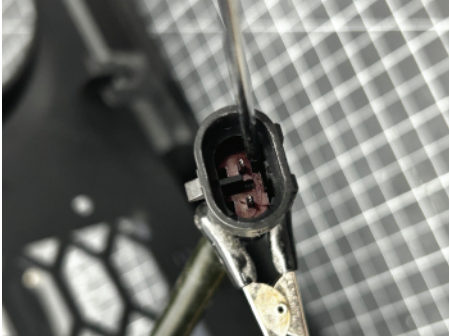

1

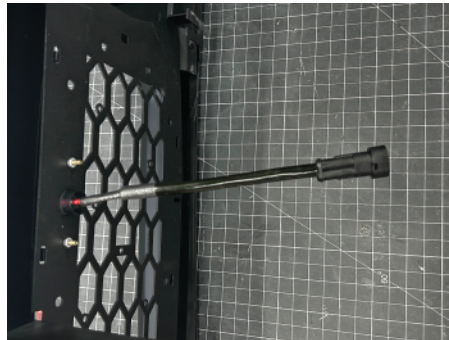

2

3

4

5

With the connector facing up, insert the red wire into (1) and the black wire into the (2) position

Insert the tab all the way until you hear or feel a snap. Once fully inserted press hard on the red locking clip to make sure they are secure.

Step 2: Lettering

1

2

3

4

5

6

Carefully unwrap your TOYOTA lettering. Dry fit your letters to make sure you have the right orientation and use the mounting hardware supplied to attach them.

Step 3: Accessory Mounting Hardware (Optional)

Accessory mounting hardware. On the outside of the grille insert there are 16 holes you can insert your accessory hardware to. Use your supplied bag of nuts and bolts to attach to the grille.

Step 4: Powering Up

1

2

3

4

Grab your supplied harness, insert firmly into your raptor lights and wire into accessory switch or drl using a tap-a-fuse.
